

# Silence is a sound. A luxurious one.

ContiSilent™ – the tyre  
for less interior noise.

- › Reduced interior noise on all road surfaces
- › ContiSilent™ functions in all weather conditions
- › No change in any other driving performance characteristics
- › No negative influence on mileage and load/speed capability
- › Same mounting and storage as for standard tyres

# Less noise, more relaxation.

## Technical highlights.

ContiSilent™ is a tyre noise-reducing technology developed by Continental. It is designed to reduce interior noise on all road surfaces. ContiSilent™ tyres are equipped with an inner tyre absorber, a polyurethane foam, attached to the inner surface of the tread area with an adhesive. Regardless of the temperature, the structure of the foam stays intact.

ContiSilent™ helps reduce interior vehicle noise up to 9 dB(A), depending on the type of vehicle, its speed and the road surface. At the moment it is only available for summer tyres and is compatible with all commonly available rims. Driving performance is not affected and there is no negative influence on mileage and load/speed capability. Fitting on four positions is recommended.

### ContiSilent™ principle.

#### ContiSilent™ tyre

A ContiSilent™ tyre contains a polyether-based polyurethane foam. It is firmly attached to an adhesive layer on the inner surface of the tyre tread area.

#### Standard tyre

VS

#### ContiSilent™ tyre

#### Interior noise

Even while driving at high speeds, the ContiSilent™ tyre reduces road noises inside the vehicle by up to 9 dB(A). The level of reduction of interior noise depends on the type of vehicle, its speed and the road surface.

## Tyre dimensions.

Product	Manufacturer	Model	Dimension
ContiSportContact™ 5 P	Audi	RS6	285/30 ZR 21 100Y XL
		RS7	275/30 ZR 21 98Y XL
